

College and Unit Annual Review Periods

As indicated in the [Faculty Annual Review, Post-Tenure Review, and Reappointment policy](#), the review period for faculty annual reviews is to be defined in the APT document for each unit. Additionally, annual reviews are to be completed by the conclusion of the term following the end of the review period. The policy defines completion as when the written evaluation, following consideration of and/or response to any written comments provided by the faculty member and any face-to-face meeting, is sent to the dean. This document summarizes the review periods and expected completion date of this first level of review.

Units Using a Calendar-Year Review Period

Level 1 reviews are to be completed by the end of spring semester

Arts and Sciences

Chase Center

Dentistry

Education and Human Ecology

Engineering

Food, Agricultural, and Environmental
Sciences

Fisher College of Business

John Glenn College of Public Affairs
